MAKING PREOWNED AND RENTAL SIMPLE

More ways to get the equipment you need.

TOYOTA | CROWN | LINDE | NISSAN | MITSUBISHI | AND MORE

ABOUT US

**Quality preowned forklifts.
Flexible rental options.
Backed by the experience and support of Linde Material Handling Australia.**

At Preowned & Rental Forklifts, we make it easier for Australian businesses to access reliable material handling equipment without always buying new.

Whether you need a quality preowned forklift or a rental truck for additional capacity, we offer practical options to suit your requirements.

Backed by Linde Material Handling Australia's nationwide support network, you can choose equipment with greater confidence. With over 400 employees, including more than 80 skilled technicians, and access to 24/7 support, we're here to help keep your equipment running and your operations moving.

OUR RANGE

We offer equipment suited for warehouses, yards, distribution centres, manufacturing facilities and more.
Our range includes:

- **Counterbalance Forklifts**
- **Reach Trucks**
- **Pallet Trucks**
- **Pallet Stackers**
- **Order Pickers**
- **And more**

Stock is continually changing, giving you access to a variety of models, capacities and configurations to suit different applications and budgets.

USED FORKLIFTS. REFURBISHED AND READY.

Before selected preowned equipment is offered for sale, it goes through our refurbishment process to help prepare it for its next job.

Our team assesses each truck and carries out the work required to ensure it is ready for its next owner.

Our refurbishment process

1. Inspection
Each truck is assessed by our experienced team to identify its condition and refurbishment requirements.

2. Service & Repairs
Required mechanical and operational work is completed to prepare the equipment for ongoing use.

3. Refurbishment
Where required, trucks undergo cosmetic and component refurbishment to improve their overall condition and presentation.

4. Final Checks
The equipment is checked before being made available for sale, giving customers confidence in the truck they're purchasing.

FLEXIBLE RENTALS

Flexibility when your business needs it.

Sometimes you need another forklift without committing to buying one.

Our rental offering gives businesses a flexible way to access material handling equipment for changing workloads, additional fleet requirements or longer-term operational needs.

Whether you're adding capacity, replacing equipment or looking for an alternative to outright ownership, our team can help identify a rental option suited to your requirements.

Rental can help you:

- ☑ Add fleet capacity when you need it
- ☑ Avoid the upfront cost of purchasing equipment
- ☑ Respond to changing operational requirements
- ☑ Access equipment suited to your application
- ☑ Keep your business moving when additional equipment is required

BACKED BY LINDE MATERIAL HANDLING

National support you can count on.

Preowned & Rental Forklifts is backed by Linde Material Handling Australia, giving our customers access to the knowledge, service capability and support network of one of Australia's leading material handling providers.

With Linde branches and service support across Australia, you're not simply choosing a forklift — you're choosing equipment supported by an experienced national team.

That means peace of mind knowing you have an experienced national team supporting you long after delivery.

FIND YOUR NEXT FORKLIFT

Whether you're looking to buy a preowned forklift or rent one, our team can help you find the right equipment for your operation.
